Agnes Lee

agnesjihyunlee@gmail.com • (714) 353 - 6964 • aggyjlee.github.io

Digital designer with experience in creating engaging, cross-platform web experiences and interest in product and UX/UI design.

EXPERIENCE

The Washington Post, News Designer

SEPTEMBER 2022 - PRESENT

- Collaborate with copy desk, photo editors, desk editors and other designers to produce reader-centric print and digital stories
- Conceptualize and design digital stories through sketches, wireframes and mockups in Figma
- Design and develop interactive digital stories with HTML/CSS/JS/React that are mobile-first and responsive across platforms and devices
- Respond swiftly to breaking news, redesigning newspaper pages, including the front page and inside news pages, on nightly deadline

CalMatters, Data & Interactives Intern

MARCH 2022 - JUNE 2022

- Contributed to data-driven projects by assisting with data collection, cleaning, analysis and visualization, and built interactives to explain complex issues about California policy to readers

San Francisco Chronicle, Digital Design Intern

MARCH 2022 - JUNE 2022

- Designed and developed interactive projects using React and Figma for the Chronicle and other Hearst publications, and provided design support on print and multimedia projects as needed

New England Public Media, Graphic Design Intern

OCTOBER 2021 - JANUARY 2022

- Designed assets optimized for social, email and television promotions for radio, television and in-person performances, and coordinated online distribution of email newsletters to over 30,000 recipients

PBS, Graphic Design Intern

JUNE 2021 - OCTOBER 2021

- Strategized content schedule of 3-9 weekly posts and brand copy across Instagram, YouTube and Twitter accounts of 7,000 followers and 264,000 subscribers to reach +85.4% accounts and +107% nonfollowers
